

# CHM 112 LAB REPORT FORM

(Sections of Dr. Pounds ONLY)

Your Name:

Section:

Report Due Date:

Experiment Title:

Final Result(s):

Lab Report Grading Points:

- Lab notes include protocol notes and/or instructions for this lab and at least one page dated
- Lab notes include all data recorded in lab
- Lab notes are well organized, clearly labeled, not over-crowded; no writing on lab notes copy pages
- All pages of lab notes are accurately dated
- Lab notes include some calculation work to determine final results
- Lab notes include correct calculation work to determine final results
- Final results are within 40% of the accepted value (OR generally correct for non-numerical results)\*
- Final results are within 10% of the accepted value (OR completely correct for non-numerical results)\*
- Final results are quoted above with correct units and correct number of significant figures
- Graph(s) are correctly constructed, including axis labels—free point if graph(s) are not required

(\* ) Must include unknown number above, when applicable, in order to receive these points.

**NOTE: Attach the copy pages of your laboratory notes (and your graphs, if required) to this sheet with a staple—there will be a one-point penalty for failing to staple.**
