

CSC 435
Homework Set 2
Due 5:00 p.m., February 27, 2007

Problems from Scott : 3.3, 3.5, 3.10, 3.13, 3.14, 3.15, 3.20, 3.21

Problems from Dr. Pounds:

1. What is Flynn's Taxonomy? Describe how each taxonomic entity relates to processors, memory, and possibly message passing.
2. Describe the similarities/differences in the *Pthreads* and *OpenMP* programming models.
3. What is a mutex?
